

I am so excited and privileged to introduce myself as the Office Admin/Sports Coordinator of this wonderful new facility. It is absolutely amazing how fast this city has grown in such a short amount of time. Not only will this masterpiece be the center of the sports world here in Youngsville, it will also give the opportunity of a life time to the youth here to play in this top of the line park. Our number one priority at YSC is to meet the needs of our citizens. None of this would be possible without the support of the city, so for that I want to thank you all. I also would like to thank Mr. Tim Robichaux for giving me the opportunity to continue to be surrounded by sports, as I have been my entire life.

After growing up here in Youngsville, I attended St. Thomas More High school where I played softball there for 4 years, and volleyball for 1 year. After high school, I was fortunate enough to get a scholarship to play softball for LSU for 4 years. It was such a great experience playing sports at the college level and being able to wear those three letters across my chest. I will forever bleed purple and gold. (Geaux Tigers!) I graduated from LSU in May of 2013 with a bachelor's degree in Sports Administration with a concentration in leadership.

Once I graduated and finished up my senior year softball season, I decided to move back home to be with my family. I am currently an assistant coach at St. Thomas More for their softball team. It is so great to be back into a community and people I am so familiar with. I cannot wait for the opening of this complex. It is going to do wonders for Youngsville and I am ecstatic to meet a bunch of new people along the way! Thank you guys for everything you do.
